

21 January 1983

MEMORANDUM FOR: Chief, Regulations Control Division/OIS

FROM:

Directorate of Administration
Information Review Officer

SUBJECT:

Comments on Proposed [] Records
Validation Officer (Job #247)

I hate to see another step added to the already multi-layered review process; however, I suppose that a separately designated official (RVO) for each litigation will tend to facilitate the process for that particular case. Since there is already in place a network of senior Agency officials (IRO) that respond to these types of requirements for information, I feel the RVO should work through them. I have made modifications to the attached draft [] to reflect this proposal.
